

Enteric Softgel

Protects health ingredients, reduces gastric irritation

Innovative technology

- No extra coating step needed.

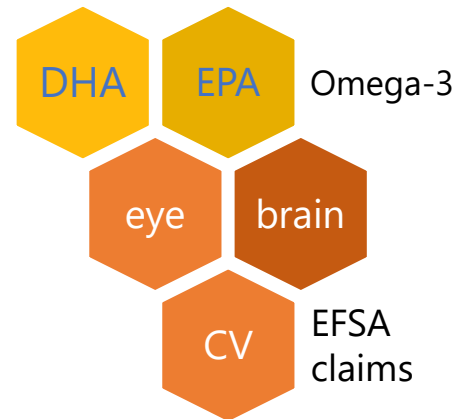

Advantages:

- Protects health ingredients against gastric juices.
- Improves absorption in the intestine.
- Reduces risk of gastric irritation and related side effects.
- Transparent shell: No dull finish due to coating.

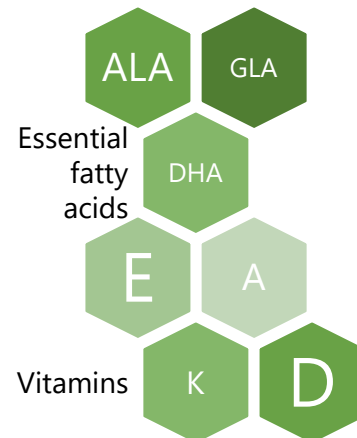

Consumer friendly:

- Clean label – no use of enteric polymers.
- Avoids reflux symptoms.

Especially suited for fish oil supplements

... and supplements based on vegetable oils.

We value health!

Market launch is subject to local regulatory requirements.
